Home Learning Project - Changes

Our next home learning project will be called 'Changes'. We would like you to spend some time over the next two weeks finding out about life cycles, historical changes, colour mixing/changing materials or the four seasons. Here are some ideas for what you might like to do but you can always thing of your own:

- Find out about the life cycle of an animal or a plant. Show the life cycle by making a life cycle wheel or models of each stage of the life cycle with play dough.
- Find out about how you can change materials e.g. turning ingredients into a cake, melting chocolate (with an adults help), making ice lollies and show what you had to do to the ingredients to change them e.g. melting, heating, freezing. Write instructions to show us how to make it.
- Change something into something else to create a piece of art work e.g.

  https://classroom.thenational.academy/lessons/to-make-a-self-portrait-using-natural-or-recycled-materials-68cd0d/
- Find out about mixing and changing colours and create a colour wheel or a piece of art

  https://classroom.thenational.academy/lessons/to-explore-tints-and-shades-ae6dfb/
- Find out about how you have changed from when you were a baby. What can you do now that you couldn't do? Has your appearance changed? Make a timeline of your life and how you have changed.
- Find out about the seasons and what changes in each season. Create a piece of art work or book about the seasons.
